

Setting up your reading lists on GCULearn

- Log in to GCULearn
- Go in to your module and navigate to the required section (for example learning resources)
- Go to the grey **Tools** menu near the top of the screen

- Click **More tools**

- Click **Resource List**

Setting up your reading lists on GCULearn

Create Link: Resource List

* Indicates a required field.

LINK INFORMATION

* Link Name: Resource List

Colour of Name: Black

Link: Tool: Resource List

Text

Path: p Words: 0

OPTIONS

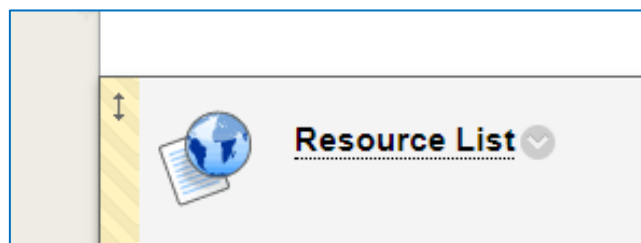

Available: Yes No

Click **Submit** to proceed. Click **Cancel** to go back.

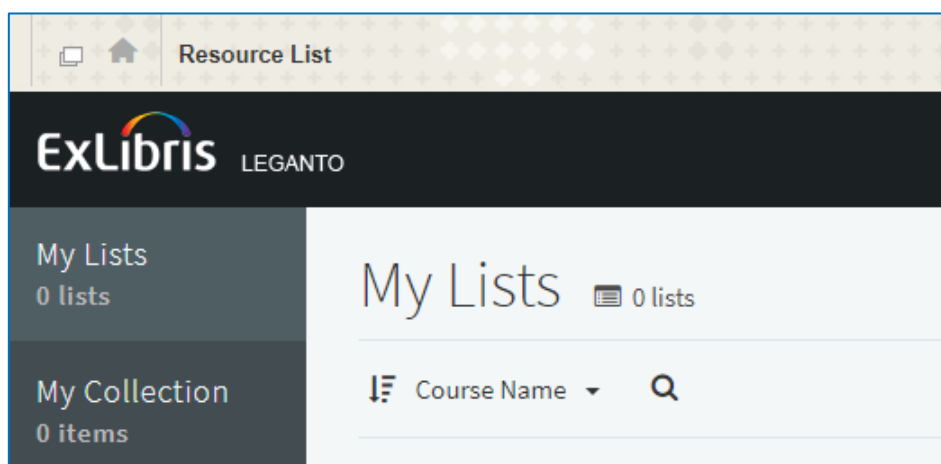

Cancel Submit

- In the popup window, you can edit the Link name or just leave it as Resource list
- Click the blue **Submit** button

To view your list, move to the bottom of the page and click the Resource List heading.

This will pull in your list for that module.

Setting up your reading lists on GCULearn

If the window stays blank, or a message stating that no reading lists have been associated with that module appears, contact us on erteng@gcu.ac.uk
