

Adding links and embed codes from edShare to GCULearn

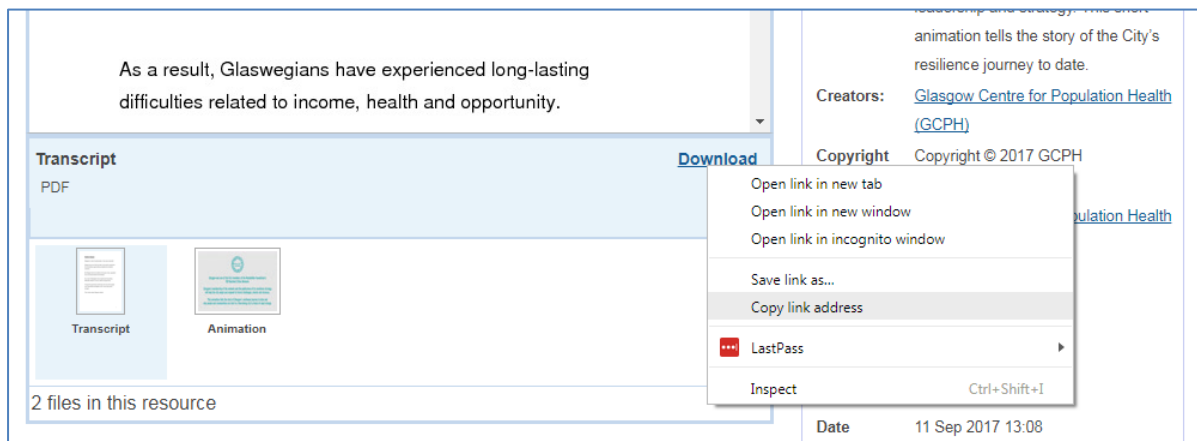

Congratulations! You have successfully added your item to edShare. Now you want to add links or embed codes to GCULearn. This document shows you how to add links to documents, presentations or multimedia items.

If you added a multimedia item, remember it usually takes overnight to run all the processes and create the embed code. If the code does not appear the next day, then contact us at edshare@gcu.ac.uk and we will look into it.

Adding a link

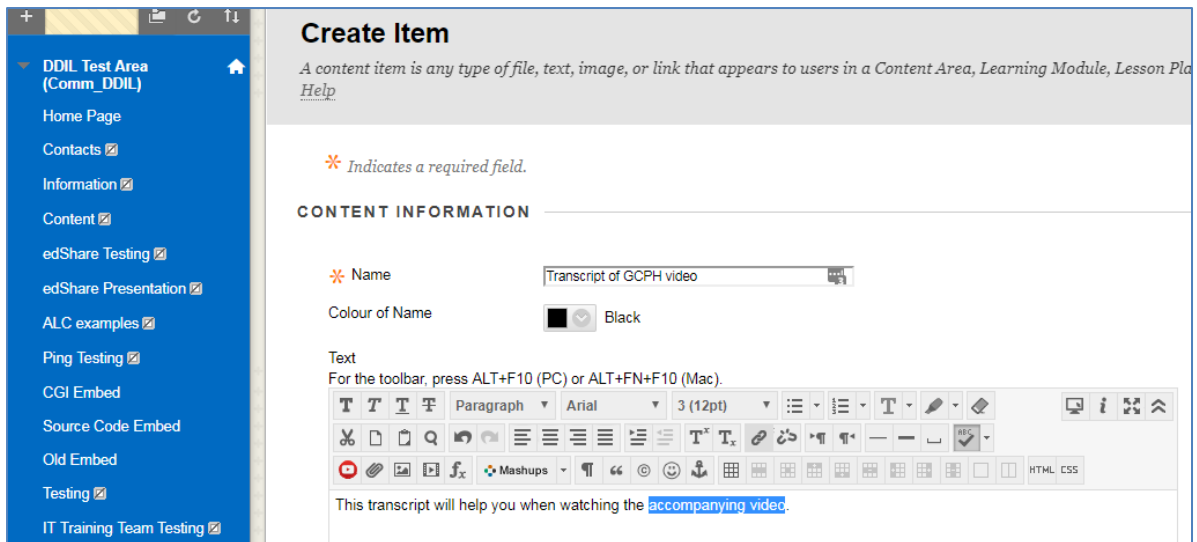

Go to your edShare item's page. If there is more than one file attached to the record, then highlight the item you wish to link. Documents (PDF or word) and presentations (PowerPoint) work slightly differently to multimedia files. Here is an example of a PDF file:

- Highlight file
- Right click the Download link and select copy link address.
- You now have a link ready to add to GCULearn or a web page.

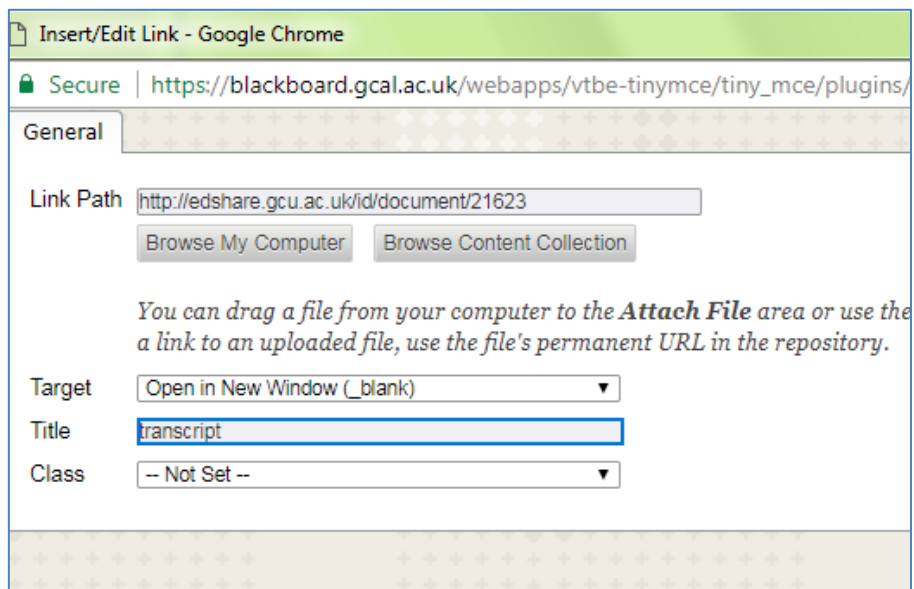

- Sign in to GCULearn
- Go to the appropriate place in your module, and click Create item (you can also use Create link, but usually you will want to add some instructions for your students).

Adding links and embed codes from edShare to GCULearn

- Highlight the text to be linked and click the hyperlink icon.

- Paste the link into the link path box
- Set target to open in new window
- Click submit

Adding links and embed codes from edShare to GCULearn

Multimedia files

The screenshot displays the edShare interface for a multimedia file. At the top, there is a video player with a progress bar at 6:25 / 6:25, volume control, and a download icon. Below the player, the file is identified as an "Animation" (Video (AVI), 309MB). There are three buttons: "Embed", "Source Code", and "Download". The "Embed" button is active, showing the following HTML code:

```
<iframe width="560" height="315" src="https://edshare.gcu.ac.uk/cgi/embed_player?docid=21624"
frameborder="0" allowfullscreen="1"></iframe>
```

Below the code is a "Copy Embed Code" button. At the bottom of the main content area, there are two thumbnails: "Transcript" and "Animation". A footer indicates "2 files in this resource".

On the right side, there is a metadata panel with the following information:

- Creators: [Glasgow Centre for Population Health \(GCPH\)](#)
- Copyright holder: Copyright © 2017 GCPH
- Tags: [Glasgow Centre for Population Health](#)
- Viewing permissions: World
- Related Organisation: [Organisation](#)
- URLs:
- Depositing User: [Mrs Marion Kelt](#)
- Date: 11 Sep 2017 13:08
- Deposited: 12 Sep 2017 01:20
- Modified:
- URI: <http://edshare.gcu.ac.uk/id/eprint/2936>
- Actions (login required)

- Go to your item in edShare and highlight the appropriate file (if there is more than one)
- Go to the embed code displayed below the preview window
- Highlight the URL between the two sets of inverted commas and copy it
- Insert the link in GCULearn as outlined above

Adding embed codes for multimedia files

- Find your item in edShare
- Look for the embed code displayed below the preview window
- Click copy embed code button
